

Strength in ERP Consulting

With over 700 Enterprise Resource Planning (ERP) consultants worldwide, DISYS offers the know-how to help your organization consolidate its business processes into unified systems that achieve your goals and generate positive ROI. Our ERP capabilities encompass both SAP and the full range of Oracle products, including Oracle eBusiness Suite, Siebel, PeopleSoft, JD Edwards, and Hyperion.

Supporting You at Every Stage

- **Strategic Counseling** – analyzing, redesigning, and improving your processes
- **Platform and Application Integration** – increasing efficiency and productivity by consolidating multiple systems, retiring legacy applications, or integrating reporting into one platform
- **Implementations and Rollouts** – applying robust processes and methodologies to achieve maximum results with minimal disruption
- **Upgrades** – guiding you from system audits and readiness through seamless execution
- **Support and Maintenance** – helping you meet service level agreements, end-to-end
- **Testing** – to eliminate errors and assure quality and consistency
- **Mergers and Acquisitions and Instance Consolidations** – to help your systems and processes deliver their full potential

Trust Our ERP Experience

Through long-term engagements with global enterprises and government agencies, we offer proven expertise for any ERP requirement:

“DISYS offers the know-how to connect your business processes into a unified system.”

business intelligence, human capital management, customer relationship management, supply chain management and product lifecycle management.

DISYS' ERP offerings include:

- Business intelligence and training for a government sponsored financial enterprise
- Maintenance and support for a multi-modular regional transportation agency
- Optimization and support for an Internet based home service provider
- Oracle implementation for a major energy and utilities retailer and wholesaler
- Implementation and testing for the government of a major capital city
