

Strength in Recruiting

At DISYS, we deliver IT consultants with the right skills, at the right time, at the right price. How do we do it? The answer is simple: by being the best in the business.

We're the IT staffing experts. With our national and international network of offices and delivery centers, we respond quickly to requirements of any size, identify and recruit talent unknown to other firms, and execute based on a global delivery model.

Our commitment to quality service is best exemplified by our rigorous five-step recruiting process.

Our Proven Approach to Delivering the Most Qualified IT Talent

1. Thorough pre-qualification telephone screening

Our initial evaluation of candidate skills and background determines the likelihood of a strong match.

2. Comprehensive skills assessment and measurement

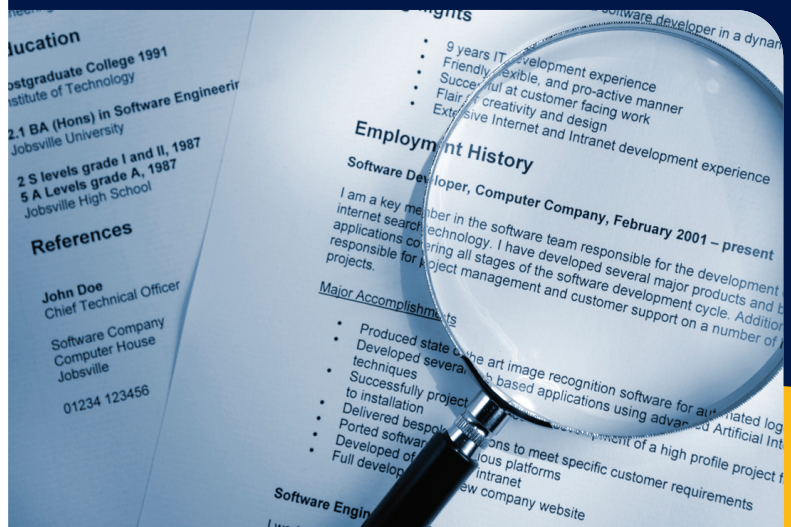

We conduct specialized assessments to make sure a candidate possesses the specific capabilities your assignment calls for.

3. Reference verification

With our reputation and your business on the line, background checks and drug testing by independent outside firms help assure that candidates have presented themselves truthfully.

4. Personal interviews

We assess a candidate's attitude, demeanor, career objectives, and overall suitability for a particular assignment.

5. Comprehensive review by your DISYS representative.

Finally, your company's dedicated account executive personally verifies that a candidate is the right fit for your project.

Thanks to this careful and proven selection process, we do more than assure you receive the best IT talent in the business — we stand behind our service with a total satisfaction guarantee.

"We deliver IT consultants with the right skills, at the right time, at the right price."

The results speak for themselves.

DISYS is the provider of choice for IT consultants to many of the world's most prestigious companies, ranging in size from the very largest members of the Fortune 1000 to small- to mid-sized companies across the United States.

We're ready to work with you. Talk to us today to learn how DISYS delivers results.
