

MANUFACTURING & LOGISTICS SERVICES

The Manufacturing and Logistics sector is expected to grow significantly in 2016. DISYS is leading the way in making sure our clients are prepared.

In Manufacturing & Logistics, DISYS Specializes In:

- Application Development
- Business Intelligence
- Cloud
- Project Management (PMO)
- Testing & Automation
- Infrastructure Support Systems (ISS)

FOR MANUFACTURING & LOGISTICS, DISYS IS SOLVING THE FOLLOWING CONCERNS:

CUSTOMER SATISFACTION

DISYS is deploying service desks around the world that are improving user satisfaction through faster responsiveness, rapid issue resolution and self-service tools. Our SLA-based Ticketing System, partnerships with leading VoIP providers, and Automation experts offer clients a wide range of contact tools and automated performance reporting.

CLOUD ENABLEMENT

DISYS is leveraging our Agile Program Framework and deploying its award-winning cloud enablement tool, Sirro, to guide manufacturing and logistics companies through critical cloud transitions that reduce application redundancies and save millions of dollars annually.

BIG DATA & ANALYTICS

DISYS, in partnership with SAP utilizes the SIRRO Cloud Management application, coupled with manufacturing-specific value chain software to bring infrastructure and software cost savings and producing supply chain efficiencies to our clients.

SPEED TO MARKET

Our manufacturing clients are benefitting from DISYS' Agile Program Framework to streamline processes and maintain global quality standards under compressed product development schedules.

ACCELERATING PRODUCTIVITY:

DISYS is committed to accelerating productivity and increasing efficiency for our clients. See how we have done so with our Diversified Manufacturing & Logistics clients by downloading the following case studies on DISYS.com:
