DISYS is helping our Healthcare & Life Sciences partners maintain costs and keep pace with industry disruptors by improving health services outcomes and developing functional business models that withstand rapid global and industry changes.

In Healthcare & Life Sciences, DISYS Specializes In:

- Application Development
- Business Intelligence
- Project Management (PMO)
- Testing & Automation
- Infrastructure Support Systems (ISS)

## FOR HEALTHCARE & LIFE SCIENCES, DISYS IS SOLVING THE FOLLOWING CONCERNS:

### VALUE-BASED CARE

DISYS' Big Data and Analytics Framework lets clients leverage historical and predictive data to drive sophisticated customer segmentation for customized patient outreach and targeted messaging. Our mobile application solutions bring new engagement models to life and increase patient satisfaction through access and communication.

### RISK MITIGATION

DISYS is reducing co-employment risk by creating solutions that preserve institutional knowledge and reduce new employee ramp-up time. Our Project Management as a Service (PMaaS) solutions combine turnkey implementation with customized training to help our clients maintain regulatory compliance and minimize disruptions caused by M&A activity.

### ACCESS TO NICHE TALENT

For Payers, Providers & Government, DISYS' customized, repeatable training processes and co-owned curricula are providing Pega Certified Systems Architects in high volume to improve the patient experience, expand R&D capability, and manage cost. Our Pegasystems experts are part of a robust development and retention program including partnerships with accredited universities and a formal mentoring program. Benefits include decreased ramp-up time and guaranteed exceptional performance.

### MARKET CONSOLIDATION

Industry merger and acquisition activity continues to rise; with reports of over 100 deals per quarter. DISYS' Infrastructure Support Services practice is supporting M&A activities for Life Sciences organizations with scalable solutions and repeatable, proven methodologies. Specialized integration services of over 24,000 users across 70 countries to support our clients' largest acquisition to date.

### ACCELERATING PRODUCTIVITY:
